## WIDELY KNOWN SHARON MAN PASSES AWAY

### William Whitla Dies Early Today In Sharon Home

Pneumonia Fatal To Attorney  
Who Was Kidnaped  
As Boy In 1909

### SUDDEN DEATH IS SHOCK TO DISTRICT

Deceased Is Brother Of Mrs.  
W. W. Braham Of Fair-  
field Avenue, New  
Castle

Attorney William Whitla, 32,  
of Sharon, who was the object  
of a nation wide search in 1909  
when he was kidnaped by James  
and Helen Boyle, died early to-  
day at his home on State street,  
Sharon, from pneumonia. He  
was stricken with influenza, last  
week, and on Monday of this  
week he became critical, pneu-  
monia developing.

The kidnaping of little nine year  
old Billy Whitla in 1909 was a sen-  
sation that rocked the entire coun-  
try. James and Helen Boyle ap-  
peared at the school where he was a  
student and informed the teacher  
that his parents wanted him taken  
home because of a smallpox scare.  
Putting the little fellow into a horse  
drawn buggy they left Sharon.

Nation Aroused  
Immediately the newspapers of  
the entire country took up the case  
and police of every city were on the  
lookout. A few weeks later At-  
torney James P. Whitla, father of the  
boy paid \$10,000 in Cleveland, O.,  
and the boy was returned.

The return of Billy Whitla did  
not settle the case. Money was  
spent lavishly and weeks later,  
James and Helen Boyle were cap-

### PA NEW OBSERVES

As work was resumed on the pav-  
ing of the widened portion of East  
Washington street yesterday, Pa  
New noted that there were about  
three times as many spectators  
looking on as there were workmen  
engaged in the task.

The first 1933 Michigan license  
plate was noted by Pa New on the  
streets of New Castle yesterday. The  
new plates are white with dark blue  
letters and quite attractive looking.

Here is a puzzle Pa New is pass-  
ing along to you. Pa saw an automo-  
bile on East Washington street yester-  
day that was perfectly dignified  
except that ten or twelve tin cans  
were clanging along from behind.  
Pa glanced into the car expecting  
to find a blushing bride and groom  
there but was surprised to see a  
lone man driving nonchalantly  
along.

The Y. W. C. A. second floor lobby  
is decorated prettily in compliance  
with the season, and presents a  
cheerful sight to visitors there.

A visitor to New Castle, just re-  
cently returned from an around the  
world trip, says that this is the ideal  
belt in which to live. He told Pa  
New that there are nicer places  
than New Castle to spend a couple  
of weeks at chosen times in the year,  
but this is the district for the all-  
year-round.

City council has started action in  
the right direction in the matter of  
taxation. True, the reduction in the  
millage for the coming year is not  
much, but it is a start in the right  
direction. The county commission-  
ers and the school board are the  
next to set tax millages and taxpay-  
ers are seeking a trend in the same

### New York Millionaire Plunges From Eleventh Floor To Death Today

(BULLETIN)  
(International News Service)  
NEW YORK, Dec. 28.—Mal-  
colm D. Whitman, 55, million-  
aire attorney, Harvard athlete  
and for three years America's  
tennis champion around the  
turn of the century, plunged to  
his death today when he leaped  
or fell from a bathroom win-  
dow of his eleventh floor pen-  
house.  
Two nurses and a doctor who had  
been attending him for a nervous  
disorder were in an adjoining room  
when his pajama-clad body hurtled  
out of the narrow window.

man, Boston capitalist, was a mem-

### Royal Guard In Bulgaria Slain During Rioting

Battle Takes Place In Sofia  
As King Accepts Pre-  
mier's Resignation

### EIGHTEEN OTHERS SUFFER INJURIES

(International News Service)  
SOFIA, Bulgaria, Dec. 28.—A mem-  
ber of the Bulgarian Royal Palace  
guard was shot and killed today  
during a pitched battle between rival  
factions which broke out while King  
Boris was accepting the resignation  
of Premier Nicolas Muschanoff.

Eighteen other persons, including  
a number of bystanders, were in-  
jured.  
The battle started shortly after  
Premier Muschanoff arrived at the  
palace to tender his cabinet's resig-  
nation owing to internal dissen-  
sion.

Guard Is Slain  
Among the crowd gathered in  
front of the palace to watch the re-  
signing Premier drive into the court-  
yard were about 30 political hot-  
heads, including Macedonians and  
independents. A chance remark pre-  
cipitated the conflict, which was  
visible from the windows of the pal-  
ace.

The palace guard was slain when  
he attempted to pacify the combat-  
ants. Most of the injured were  
Macedonians.  
The cabinet crisis prompting Mus-  
chanoff's resignation resulted from  
the refusal of other political parties  
to accede to the demands of Agrar-  
ians for greater influence in the  
government's policies, particularly  
with regard to financial and eco-  
nomic reforms.

### Insull Preparing To Stay In Greece

American Legation Announces  
No Further Appeals For Ex-  
tradition Planned

(International News Service)  
ATHENS, Dec. 28.—Free from the  
threat of extradition to the United  
States and honored as a hero, Sam-  
uel Insull made plans today for a  
sojourn in this country that may  
last many years.  
The former Chicago utilities mag-  
nate indicated he had no immediate  
plans for leaving, stating:  
"I like it here."

It was understood his passport ex-  
pires January 7, which made it ap-  
pear possible he might even reside  
permanently in Greece.

The American legation announced  
the decision of the Greek court of  
appeals, which saved the ex-million-  
aire from returning to Chicago to  
face charges of larceny and em-  
bezzlement, would be absolutely  
binding on the government. No fur-  
ther appeal will be taken.

Continuation Of Gas Tax  
Seen—Budget-Balancing  
Tax Bill Program  
Fades

(International News Service)  
WASHINGTON, Dec. 28.—  
The ambitious plan of  
Democratic House leaders  
to enact a budget-balancing  
tax bill during the present  
session of Congress appar-  
ently has been shattered to-  
day.

Advices from Albany that Gov.  
Franklin D. Roosevelt is opposed to  
a general manufacturers' sales tax  
and opposition both in Senate and  
House to a tax program combined  
to dim the prospects of extensive  
legislation.

Continue Gas Tax?  
Continuation of the \$130,000,000  
year federal gasoline tax will be  
urged both in House and Senate,  
and the battle for beer will go on.

Senator Harrison of Mississippi,  
Democratic leader of the Senate  
Finance committee, disclosed that  
the Democrats will oppose any move  
to make a general tax bill out of  
either the gasoline continuation  
resolution or the beer bill.

committee is slated to survey the

### Dr. Haas Again Heads Educators

Dr. Ben Graham Named A  
Vice President Of State  
Educational Body

### PINCHOT URGES ECONOMY PLAN

(International News Service)  
HARRISBURG, Dec. 28.—Today's  
convention program of the Pennsylv-  
ania State Education Association  
called for election of officers by the  
delegates this afternoon and a gen-  
eral meeting of visiting teachers and  
school officers tonight.

Dr. Francis B. Haas, Bloomsburg,  
again will head the association,  
having been nominated without op-  
position for presidency. Other  
unanimous nominations were: M. S.  
Benz, Ebensburg, first vice pres-  
ident; Ben Graham, second vice-  
president; M. H. Thomas, super-  
intendent of Harrisburg schools, sec-  
ond honorary vice-president.

Gov. Gifford Pinchot addressed  
the convention, suggesting that  
school leaders "find the happy me-  
dium" between slashes to bare es-  
sentials and unwarranted expan-  
sion of the system. He declared  
that costs must be determined "in  
the light of what the taxpayers can  
stand."

### Roads In County In Bad Condition Early This Morning

Thin Sheet Of Ice Makes Driv-  
ing Hazardous Motor-  
ists Find

Driving conditions in some sec-  
tions of the county were found un-  
usually treacherous this morning,  
according to motorists.

During the night a slight mist had  
fallen, which froze in some spots  
as the temperature dropped. Mo-  
torists coming onto such spots in  
the road unexpectedly suddenly  
found themselves sliding around over  
the road.

The roads south and west of the  
city were particularly bad, motorists  
at an early hour found, and only  
the fact that a heavy fog hung  
over the countryside prevented ac-  
cidents as the motorists were forced  
to drive slowly due to the poor vis-  
ibility.

do everything by machinery.  
Well, if they can invent some  
machine that will kill more  
people than automobiles why  
their plan will work.  
Three hundred and eighty

not repealed. That's more peo-  
ple than died by pestilence dur-

### Bessemer Man Found Drowned

Dominic Ruzzine, Missing  
Since Tuesday Evening,  
Found Today In  
Shallow Pool

### CORONER SAYS CASE IS SUICIDE

Dominic Ruzzine, aged 35 years, a  
resident of Bessemer for the past 11  
years, was found drowned in a shal-  
low pool of water below the dam at  
the Bessemer cement plant shortly  
after 7 o'clock this morning.

His body was discovered lying face  
downward in the water by friends  
who had been searching for him  
throughout the night, alarmed when  
he left the house alone at 7 o'clock  
and failed to return.

Marks on the bank showed where  
he had walked down to the edge of  
the concrete spillway. The body was  
found about five feet from the  
shore, the water being only two feet  
deep at the spot. The dam is lo-  
cated about two hundred yards from  
Ruzzine's home.

Coroner Orville Lotter, who was  
called to the scene, pronounced  
Ruzzine's death as suicide.

No motive for the rash act could  
be learned. While he had not been  
working for the past few months, it  
was found that he had money in-  
vested in postal savings funds and a  
small amount in the bank. He had  
apparently been in good health and  
good spirits up to the time he dis-  
appeared last evening, and gave no  
intimation of taking his life.

Surviving are his wife, Anna; and  
four children, Justina, Mary, Dom-  
inic, and Louise.

The body was removed to the Ma-  
honing undertaking rooms and pre-  
pared for burial.

### Woman Is Found Slaying Victim At Muskogee, Okla.

Mystery surrounded the finding to-  
day of the battered body of Mary  
Wolfenberger, 45, Muskogee modiste,  
at the rear entrance of the west-  
side high school.

Tracks in the school yard indi-  
cated that the body had been  
dragged there by the slayer.

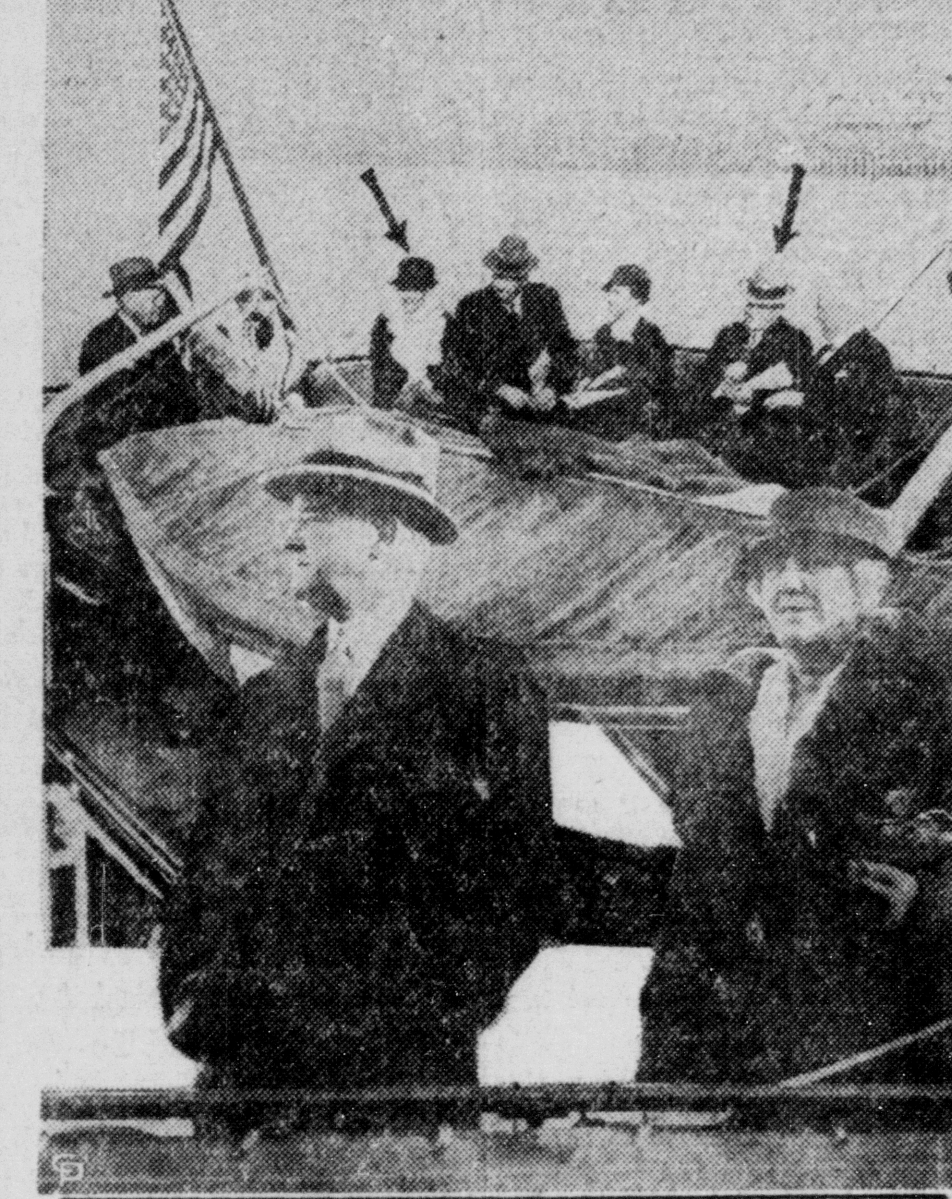

Police expressed the theory that  
the woman was accosted by a hold-  
up man and beaten to death when  
she resisted.

### Speedy Action In Senate For Beer Uncertain

Senate Committee Will Try  
To Have Quorum Session  
Before Next Week

(International News Service)  
WASHINGTON, Dec. 28.—Pros-  
pects for early senate action to leg-  
islate beer were dampened today by  
uncertainty whether a quorum of  
the Senate Judiciary committee  
could be obtained before next week.

Senator Norris (R) of Nebraska,  
the committee chairman, issued a  
call for a meeting today.

A subcommittee headed by Sena-  
tor Blaine (R) of Wisconsin, worked  
informally to redraft the Collier bill  
for 3.2 per cent beer by weight,  
which passed the house.

"I see little prospect that our job  
will be finished before next week,"  
said Blaine.

Draft Completed  
This same subcommittee has com-  
pleted the tentative draft of a re-  
peal resolution intended to safe-  
guard dry states and prevent the re-  
turn of the saloon.

The national prohibition board of  
strategy had ready a long written  
statement assailing the proposal to  
legalize beer as unconstitutional.

Dr. E. C. Dinwiddie, chairman of  
this board, was refused the opportu-  
nity to offer verbal testimony  
against modification of the Volstead  
act. The dries continued, however,  
to exert pressure in favor of public  
hearings.

"If the committee should overrule  
me and decide to take testimony,"  
Norris insisted, "it would mean the  
end of beer legislation at this ses-  
sion. Even at best, the time in  
which to act will be short."

Injuries

The Misses Elizabeth, Katherine  
and Marion Logan of the Knox,

North street, sustained injuries of a  
more or less serious nature last  
Monday night, when their coupe, in  
which they were riding at the time,  
overturned into the ditch on the Pu-  
laski road.

The Misses Elizabeth and Kath-  
erine were the more severely injured  
and are in the New Castle hospital,  
the former with a scalp wound and  
the latter with a severe injury of  
the left eye caused by a piece of  
glass from her glasses. Marion  
Logan was badly bruised about the  
face but was able to go home. Their  
car was damaged to some extent.

PITTSBURGH, Dec. 28.—  
One man was burned to  
death and three firemen

in the heart of downtown  
Pittsburgh.

The victim was identified  
as J. Henry Barton, 60 a res-

Scores of other hotel  
guests escaped or were led to  
safety through smoke filled  
corridors.

Identity of the victim was not im-  
mediately established. His body

Firemen Injured  
The injured firemen were Capt.

### Body Of Young Man Found In Burning Auto

Erie Police Checking Identity  
Of Young Man Believed  
Murder Victim

(International News Service)  
ERIE, Pa., Dec. 28.—A flaming  
automobile parked along a country  
road near here today revealed the  
body of an unidentified young man  
who coroner and police agreed had  
been murdered.

Coroner W. G. Strohle began an  
immediate investigation into the case  
and expressed belief the victim had  
been struck over the head and his  
skull crushed before being cremated  
in the auto.

Police were holding a man and a  
boy whose names they did not dis-  
close. The youth was said to have  
reported hearing a shot a short time  
before the auto was discovered by  
Forest Woodward, a bus driver.

A cursory examination of the vic-  
tim disclosed no bullet wounds, ac-  
cording to Coroner Strohle.  
The machine was listed to Mr. and  
Mrs. Mike Esbicki of Erie. State  
police were attempting to learn if  
the victim was their son, Mike Es-  
bicki, Jr.

Footprints of a woman were found  
near the burned auto, police said.

# ROOSEVELT HALTS SALES TAX PROGRAM

## New Sales Tax Plans Opposed By Roosevelt

President-Elect Will Likely Reiterate Stand On Sales Tax Proposal

INVITES GARNER TO CONFERENCE

(International News Service) ALBANY, N. Y., Dec. 28.—President-Elect Roosevelt is expected to reiterate in conference during the next week with Democratic congressional leaders, his firm opposition to a general manufacturers' sales tax.

Mr. Roosevelt, it is known, already has informed some members of his party in Congress of his objection to that type of tax. He is scheduled to take up the matter in a few days with Speaker John N. Garner, who announced in Washington yesterday that he favors the sales tax if necessary to balance the federal budget. The Speaker has been invited to Roosevelt's Hyde Park home.

**Is Undecided**  
The President-Elect has not yet decided whether he will use his party influence in an effort to prevent passage of a sales tax bill at the short session of Congress he probably will reveal his intentions during the conference with Garner.

Governor Roosevelt's views on the sales tax were divulged by his friends after they read a newspaper article stating he favored that method of balancing the budget. They claimed to be "horrified" to see his views so represented.

The stand taken by the President-Elect does not close the door to approval by him of some form of a tax on sales. In fact, the gasoline tax, which is a saleslevy, was written on the state's statute books during his administration. He also recommended an increase in the state stock transfer tax, likewise a levy on sales.

Mr. Roosevelt is said to feel a general manufacturers' sales tax confines the tax burden too closely to the consumers. It is understood the President-Elect's view on the tax are being carried to Washington by Senator Robert J. Bulkley of Ohio, a visitor here yesterday.

direction in action by both bodies. Taxes must be reduced on all fronts, the taxpayers assert.

Watch night services are being planned by many organizations in New Castle. There will probably be a more religious trend to the programs than in many previous instances due to the fact that the new year dawns on Sunday morning.

Twin poodles with red ribbons around their necks were attracting attention this morning on North Mercer street from the coupe in which they were sitting possessively. They seemed to think the ribbons quite alright.

Christmas over but few of the trees have been removed yet, Pa. Newscasters observe. By the way, that tree in front of the First Baptist church, East street, is a gigantic and pretty one. A pipe was driven part way into the ground and the tree trunk inserted into it.

President Hoover isn't the only chap out fishing, for, if carrying a rod and reel is any indication, a young boy on East North street this morning was heading for the river.

A seven or eight year old boy on East North street this morning was wearing a large black derby, much to the envy of his playmates. Speaking of hats, we saw a chap downtown this morning wearing one that bespoke of birth in Oklahoma or Montana. It was one of the cowboy type. The chap wearing it certainly was not an easterner.

The horses at Troop F are not getting a whole lot of exercise now that the weather has become such as to discourage civilian riders, and, Pa. Newscasters observe, have an over abundance of pep. When the spring riding commences they may have to be tamed again before they are "ridable."

Driving out to Bessemer this morning, Coroner Orville Potter was given a sudden thrill when his started to skid around on the road, turning completely around and plunging into the bank. An investigation showed the road covered with a thin skin of ice. Fortunately he was going slowly at the time and the car did not overturn. The rest of the journey was made with two wheels on the berm alongside the road.

Mr. and Mrs. Brahm are in Sharon at the present time, having been called there when Mr. Whitla developed pneumonia.

## Install Clark As Kiwanis Head

New Officers For Coming Year Are Inducted At Meeting Held Today

Norman L. Clark was installed as the new president of the Kiwanis Club at the meeting held at noon in The Castleton, being presented with his president's pin and gavel by retiring President Clarence M. England.

Following his induction, the charge to the other new officers was made by H. L. Marvin. They are: Charles A. Bolen, first vice president; J. Dan Reebie, second vice president; S. M. England, trustee; Robert L. Meermans, treasurer, and L. C. Mantz, secretary.

Following this ceremony, R. L. Wallace gave the charge to the directors, Thomas G. Blake, H. L. Gormley, W. L. Hanna, L. A. Haug, Gilbert Long, San Lewis, James Mayberry, L. W. Strayer and Edgar L. Thompson.

# SURPRISE GATHERING HONORS BIRTHDAY

Mrs. Ned C. Chapman proved a pleasing hostess Tuesday evening when she entertained a gathering of friends at the home of her sister, Mrs. C. F. Gerould, 318 Norwood avenue at a party in honor of her husband, Ned Chapman, the occasion marking his twenty-seventh birthday anniversary.

The event was cleverly carried out and the honor guest was taken by complete surprise. After congratulations had been extended the guests turned their attention to a contest in bridge.

Lovely prizes were won by Mrs. Thomas Solomon and Paul Montgomery.

At the appointed time, the guests were ushered into the dining room, where they were served a delicious menu, the table being prettily decorated in tones of pink and white and the center was graced with a large tiered cake topped with twenty-seven lighted tapers forming the initials "N. C."

When the evening was at its height Kelley Montgomery, in behalf of those assembled presented Mr. Chapman with a handsome gift in remembrance of the occasion.

The balance of the evening was spent informally with chat, radio music and dancing.

### "BUY AMERICAN" TO HELP PROSPERITY

A MOVEMENT proposed and started by an American Legion editor, Jack R. C. Cann, of Detroit, Mich., president of the American Legion Press Association, to induce people to "Buy American" has received signal attention in Detroit and is extending throughout the state of Michigan, attracting attention likewise in other states.

In Detroit, the water board is stamping all water bills sent out with the slogan "Buying American-made products will help to restore American prosperity." The United Commercial Travelers, at a meeting recently, endorsed the movement and donated a portion of their radio time to the American Legion in furtherance of the movement. All city checks issued from the office of the city treasurer are being stamped with a slogan, urging that the money the checks represented be spent for American-made goods. Union labor post of the Legion in Detroit is donating wind-shield stickers. Automobile tire covers are being painted with slogans.

One of the most effective ideas used is the placing of a poster in the windows of empty business houses, reading as follows:

### THIS PLACE WILL OPEN FOR BUSINESS

and will employ help as soon as business improves enough to make it possible. You can help the return of better times to this country if you will BUY AMERICAN manufactured goods in preference to cheap-made foreign manufactures.

### NEW YEAR'S RESOLUTIONS FOR THE PEDESTRIAN

While this is a good season for the motorist to determine that he will drive more carefully during 1933, it is also a proper time for the pedestrian to resolve that he will avoid those errors which in 1931 killed 14,500 walkers and injured nearly 300,000.

Maxwell Halsey, Traffic Engineer of the National Bureau of Casualty and Surety Underwriters, has drawn up a set of resolutions for the man-a-foot. They are:

#### CITY

I will not cross a street when traffic lights are against me, nor will I cross diagonally or between intersections.

I will not cross at intersections where there are no signals without looking to traffic.

I will not come from behind parked cars without observing what is before me.

I will not get on or off a street car without satisfying myself that my way is clear and I will not take it for granted that all motorists always obey all rules.

I will not take a chance any place against a dangerous driver.

#### COUNTRY

I will not forget to walk on left side of road so that I can face oncoming cars.

I will not cross at a sharp curve or just at the brow of a steep hill where I cannot see what is coming.

I will not forget to allow for a swerve of a car on rough roads, giving all vehicles plenty of room.

I will not forget when I drive how I feel when I am walking.

Follow these instructions and be a "safe walker."

### BACK WHERE THEY EAT

A Philadelphia lawyer speaks for a group organized in that city to acquire 5,000 acres of land and start an agricultural colony in Bucks county at the eastern end of the state. A legal charter is sought, and influential citizens have pledged funds to launch the experiment.

It is an old idea proposed in new times. At least three-quarters of the prospective members of the colony have been receiving poor relief, though many were formerly profitably employed. The proposition is to do in an organized manner what has been going on in many sections of many states for two or three years. It is a recognition of the fact that under conditions as they now exist the country dweller is much better situated economically than are millions of urbanites out of employment.

Such an experiment ought to succeed and have numerous emulators comments the Cleveland Plain Dealer. Whether it does or not depends far more on the personnel of the colony than on its financial backing at the outset. No one can take it as a lark, for agricultural life is anything but that. It means hard work, long hours, the endurance of conditions that seem harsh to city-bred; on the other hand, it means an independence unknown to those whose life between pay days is almost one of suspended animation.

More and more unemployed are finding their way back to the soil. The transition is usually without noise or formality or the endowment of wealth. Much in the economic picture of the future, one suspects, depends on how general this exodus from the asphalt becomes.

Few great men got that way by waiting for instructions.

No man is bigger than the things required to get his goat.

Ideas are funny little things. They won't work unless you do.

Another way to make your wife suffer is to grouch and not say what it's about.

Peace is an interval during which nations make resolutions to be chivalrous next time.

Among the yellow races we must include the one that won't enforce a sane law if it endangers business.

A cow's jaw moves 41,000 times in a day." And yet, as far as we know, her vocabulary is limited to one word.

Now hog stomach is used to ease the pains of human stomachs. For acute cases, however, the ham still serves much better.

Learn a new thing every day: A naturalist says his investigation of African elephants shows they are "right-handed."

"The sounds of almost all musical instruments," says a writer, "have their parallels in nature." We still labor under an impression the saxophone is entirely man's own idea.

DO YOU REMEMBER?

I don't remember anything that I don't want to remember.

I don't remember cheating in school. Don't remember having ever told a lie. Don't remember stealing anything. Don't remember throwing a rock at a Chinese vegetable man. Don't remember that awful first time I ever rode a horse.

I don't remember fighting and being licked. Don't remember lying and being caught. Don't remember breaking any windows and pretending I didn't. Don't remember what a rotten actor I was in high school days.

I don't remember ever losing my temper. Don't remember quarreling with a friend. Don't remember doing anything mean. Don't remember being afraid in the war and running for my life. Don't remember being lazy or discouraged. Not ever.

I don't remember writing bad poetry. Don't remember spending any money foolishly. Don't remember being too proud to apologize or to face the music. Don't remember ever boring anybody. Don't remember pretending to read a book I haven't read.

I don't remember any snobishness. Don't remember killing anything or shaming anybody or being a pest. Don't remember making any mistakes or procrastinating or turning my head away from human misery because I was afraid to face it and do something about it.

I don't remember doing any of these weak, mad, silly, regrettable things that we are certain to do some time in the course of a life.

Why don't I remember them?

Because I don't WANT to remember them. Because I forget too often the essential nature of humanity, and forget that if we are ever to grow greater than we seem we must grow through the conquest of the weaker lives we have lived. Remember them sometimes with grief and sometimes with humiliation, but always with understanding of what we have done and what we want to do—and what we have been and what we must become.

UNIFORM LAWS

You object to the bullying way in which some traffic officers attack you when you violate a traffic law.

It is admitted that too often these officers assume an uncalled for, arrogant manner.

It is true also that you have tried to be "hard" with officers.

Experience has taught these traffic men that a polite, gentlemanly manner will be imposed upon by the general public.

These supporters of the law are not responsible for the law's provisions.

They are hired to enforce them.

If you are a violator you must expect, at least, a severe reprimand.

Naturally, drivers from other states are more likely to ensure the traffic officers who do not make sufficient allowance for their lack of knowledge of local provisions of the law.

Especially if he is doing what is within the law at home, the automobilist who is hauled out by a policeman outside his state or city feels he is unjustly dealt with and very likely says so.

The country needs nation-wide rules and regulations for those ordinary conditions to be met in driving.

By EDGAR A. GUEST

THE PRODIGAL'S RETURN  
Lord, now the prodigal son returns  
From the crowded street where the  
bright light burns

Broken by pleasure and ready for  
tag;  
Lord, he comes back to his native  
soil.

Back to the old roof, back to the  
door  
Asking for pardon and blessing once  
more.

Lord, now the prodigal son again  
Discovers that trust in earth's riches  
is vain;

Back he comes to the old-time  
truth  
His mother taught in his days of  
youth.

Back to the courage in times of care  
To the old-time faith and the old-time  
prayer.

Lord, the prodigal son comes home,  
Who was lured by fortune and fame  
to roam;

Back he comes to the simpler things,  
To the cheery song, which the kettle  
sings;

The joy of life 'neath the old home  
roof  
And the peace of mind which is  
failure-proof.

The motoring public was a long time in waking up to the dangers its generosity created. But the realization had to come. There are many hitch hikers on the highways today. Perhaps the number is larger than in the past. Or it may be that they only seem more numerous since a big majority are actually kicking. Kindly disposed drivers kept the number thinned out in the days this element would like to see return. It is better though, that the practice should have been abandoned. Too many people were traveling without destinations. And yet there is something terribly pathetic in the roadside spectacles of today. Whole families moving along highway shoulders drawing their meagre worldly possessions after them in wagons and carts, the women in many instances carrying babies in their arms.

The condition this represents isn't a healthy one. It isn't indicative of the America we have always known. But perhaps it is the only solution of a problem that had to become vexations. Maybe the next few months will show those people the futility of seeking their traveling expenses at the cost of others. Eventually the roadways may lose their congestion. But the interim will represent a lot of suffering.

Kindly disposed drivers kept the number thinned out in the days this element would like to see return. It is better though, that the practice should have been abandoned. Too many people were traveling without destinations. And yet there is something terribly pathetic in the roadside spectacles of today. Whole families moving along highway shoulders drawing their meagre worldly possessions after them in wagons and carts, the women in many instances carrying babies in their arms.

The condition this represents isn't a healthy one. It isn't indicative of the America we have always known. But perhaps it is the only solution of a problem that had to become vexations. Maybe the next few months will show those people the futility of seeking their traveling expenses at the cost of others. Eventually the roadways may lose their congestion. But the interim will represent a lot of suffering.

There are over one hundred thousand less automobiles registered in Pennsylvania so far this year than last year. This is a sure sign that some are hard up as the last thing that goes is the car.

## Court Decision On Texas Oil Emphasizes Proration Fight

Case Involving Martial Law Before Highest Federal Tribunal Recognized As Establishing Individual Rights Among Producers

Decision of the United States supreme court condemning use of martial law by Governor Sterling of Texas to enforce proration orders in the oil field is held to have upheld individual rights among the producers, but the comments on the case indicate belief that the principle involved in handling the oil situation is not affected.

"The decision breaks no new ground," according to the LOUISVILLE COURIER-JOURNAL, "in the principle that Federal courts have untrammeled authority to protect the rights of citizens under the Constitution of the United States."

That paper continues: "The justices sitting in the case may be assumed to have considered only the constitutional provision as it affected the personal rights involved, indifferent to the implication that they were exercising restraint on the commander-in-chief of the army and navy of a sovereign Commonwealth. Their action signifies nothing more than the supremacy of the civil law."

The governor of Oklahoma recently interfered through his military forces with the execution of a judicial process by a sheriff. Unquestionably the National Guard officers were liable to arrest and the governor was subject to citation for contempt of court. The judge evidently was discreet. The governor of Texas probably was justified under authority from the Legislature in employing troops to enforce regulation over a large territory. It happened to be a situation, however, in which rights guaranteed by the Federal Constitution intruded.

The Texas law could not suspend them, nor the men of executing the law bar the operation of a Federal injunction.

"In effect," says the FORT WORTH STAR-TELEGRAM, "the supreme court has informed Governor Sterling of Texas that it is out of agreement with him on the judgment he displayed in declaring martial law in East Texas, but that it hasn't the slightest power to prevent him from issuing a new martial law declaration tomorrow and keeping it in effect until another protest weaves its way through the channels leading to the highest court in the land, in which event it will be happy to tell the governor whether the second act contained a larger measure of discretion than the first."

Then, if it shouldn't have done so, in the supreme court's opinion he would have a perfect right to change his martial law edict's phraseology and make a third bite of the cherry. One important feature omitted from the supreme court decision is entirely to do with the effect of Governor Sterling's employment of executive prerogative. Order emerged from chaos and a degree of stabilization made itself immediately felt throughout the wide ramifications of the oil industry.

Considering the effect of the decision, the LINCOLN STATE JOURNAL declares: "The court says that it was merely an attempt by the governor to regulate the lawful use of property, and that disobedience to federal court injunctions was tantamount to the governor's placing himself above the Constitution. This is the spirit of dictatorship, and when exercised in this country it deprives a person of his property without due process of law. Chief Justice Hughes adds:

"For the future the decision settles, particularly for the state of Texas," states the HOUSTON CHRONICLE, "a matter which, since martial law was declared during the dock strike at Galveston some 14 years ago, has remained in confusion. It was a confusion which in some emergency could, at any time, have become vital. Because of an ill-advised concession made by Texas court before the circuit court at New Orleans, it was by the circuit court, in that case, stated as a conceded proposition that under Texas laws the mere fact of declaration of the governor that a state of insurrection exists is conclusive so that the courts have no power to inquire into its truth or go behind it. Explicitly this was denied in the decision of the supreme court Monday. Said the court: 'It does not follow from the fact that the executive has the range of discretion, deemed to be a necessary incident of his power to suppress disorder, that every sort of action the governor may take, no matter how unjustified, is conclusively supported by mere executive fiat. The contrary is well established.' In addition to the important pronouncements of the court upon the issues involved, the decision comes before the public at a time when a re-evaluation of public sentiment—possibly a revival in belief—that only under our sound constitutional guarantees can there be 'liberty reserved by law,' without which there can be no true liberty."

"There is no real opposition of state and federal purposes in this case," advises the WALL STREET JOURNAL, with the statement: "It is noteworthy that the decision has no bearing upon the ends which the governor sought to achieve but deals only with the appropriateness under the law of the means he chose to achieve them. Although the court extends its hand to protect the federally guaranteed rights of the injured parties, it broadly intimates that equivalent protection was available under Texas law." Reviewing the crisis and the effect of Texas law, the WALL STREET JOURNAL observes: "By way of explanation of Governor Sterling's action, though not of justification of its legality, it may be said that the crisis which he sought to meet was of the nature of panic. CHEYENNE, Wyo., Dec. 28.—Wy-

lie Miller, elected on November 8 to  
complete the unexpired term of Gov.  
F. C. Emerson, who died in 1931,  
was sworn into office yesterday.Gov. A. M. Clark, who as secretary  
of state, assumed office when Gov-  
nor Emerson died, declared he had  
no intention of relinquishing his of-  
fice until Jan. 2, 1933.Miller said that his certificate  
of election did not specify the date on  
which he was to take office, and  
he assumed that he should act at  
once. While Miller said he would  
not attempt to use force in gaining  
control of the office, he suggested  
that official acts of Governor Clark  
between now and Jan. 2 might not  
be valid.Lots of times we'd think the per-

Made Inroads Upon En-

OVER LAST YEAR(International News Service)  
HARRISBURG, Dec. 28.—Eco-  
nomic conditions have made serious  
inroads upon the enrolment of Penn-  
sylvania colleges and because of this  
and other reasons the institutions  
are finding it increasingly difficult  
to maintain old standards or to at-  
tain new ones.Dean Romeyn H. Rivenburg of  
Bucknell university pointed out these  
conditions in a report on "the ef-  
fects of the depression on Penn-  
sylvania colleges," submitted today to  
the higher education department of  
the Pennsylvania State Education  
association.Total enrolment figures for 1932,  
he said, indicate a decrease in the  
Pennsylvania colleges, compared  
with last year, of 7.5 per cent, which  
is about the same as the figures  
for the country as a whole. He said  
his survey showed that 24 college  
presidents feel that more students  
than usual will have to drop out of  
college at the beginning of the sec-  
ond semester.Reductions in extension school en-  
rolment have been drastic, tuition is  
delayed or unpaid entirely, and a  
combination of all these and other  
unfavorable factors have forced col-  
leges to curtail staffs, slash salaries  
and abandon improvements.Searching for favorable signs, Dean  
Rivenburg said: "One very encourag-  
ing result of the depression is that  
it has brought out in bold relief the  
remarkable record the finance com-  
mittee of the colleges have made in  
investing college endowments, a re-  
cord incomparably better than the  
bankers themselves have made."**Daily Digest**

were at the time gripped by a mania  
to turn their oil deposits into cash,  
as though oil were about to lose all  
value forever. Indeed, the lowest  
prices which crude petroleum  
reached in certain Texas fields in  
the summer of 1931 were enough to  
convince them that their fears were  
being realized. The state itself as  
owner of oil lands had a direct in-  
terest in the outcome. Although  
the supreme court expressly based  
its decision upon the rights of the  
complaining landowners under the  
federal constitution, it sees fit to  
recognize the force of the observa-  
tions of the lower court that the  
constitution of Texas provides "that  
the military shall at all times be  
subordinate to the civil authority"and that "no power of suspending  
laws in this state shall be exercised  
except by the Legislature." In this  
aspect of the case the supreme  
court says the interpretation of the  
state constitution is "still a matter  
of local law, as to which the courts  
of the state would in any event have  
the final word." The objection to  
this in this state shall be protesting  
the court to set it aside, is that it sought  
to apply its emergency powers  
where there was no emergency to  
call them into being.**Y. W. C. A. Notes****LADIES' GYM CLASS NOTES**Those interested in the Thursday

FOOTNOTES		
Objection has been made in Lawrence County Courts to the payment of Poor Directors salaries and the Controller has withheld approval of such salaries pending the outcome of the litigation.		
Register of Graves be eliminated and the work be placed in Recorder's Office.		
Office of Sealer of Weights and Measures be combined with City Office.		
RECOMMENDATIONS		
That County Farm Appropriation be cut to \$1,000.00.		
According to our information, our resident judges have received something over \$3000.00 each, in addition to their salaries of \$10,000.00 per year, asked to donate \$3000.00 each to the Poor Fund.		
Also believing one judge is sufficient to the needs of our County, we recommend that our legislators be instructed to take the necessary steps to eliminate the office of one judge and that the salary of the office be reduced to \$500.00 per year.		
That all salaries set by the state in regard to county offices, be repealed.		
That all state officers and employees, residents of this county, abate a proportionate portion of their salaries to county.		
Poor Department—As a large amount is expended for outside relief, and is being purchased at retail prices, we recommend this department should be conducted upon the same plan as "Mayor's Relief," and operated with those receiving aid.		
We recommend that the law providing for salary of \$5000.00 for district attorney, and two deputies at \$2500.00 and \$2000.00 be repealed.		
That no large improvement work be done the coming season.		
All fees received by any county officer be returned to the county treasury.		
Report of Committee No. 3 of the Tax Justice League of Lawrence County, whose duties were to report on costs paid in salaries to County Officers and compensation paid to employees together with a plan for reducing same.

R. L. Boyd was named Junior Vice Commander of the Perry S. Gaston Post, American Legion, at their meeting last evening, succeeding Lester McClelland who was named Senior vice commander at the meeting two weeks ago.

Last night's meeting was the first presided over by Commander Tom Edmunds, advanced from the post of Senior vice commander when James C. Brice resigned because of his appointment as Alderman of the first ward.

The meeting was one of the most interesting held in some time and was largely attended, showing renewed interest by Legionnaires in the activities of the organization.

Senior Vice Commander McClelland called attention of the members to the membership drive which is now under way, and announced that he would appoint a full membership committee to begin an intensive campaign at the next meeting of the post.

Report was made by Chairman Ivor V. Davis of the recent National Commander's banquet, showing that it had been successful financially.

At the close of the meeting, the kitchen committee, headed by Les Brindle and Johnny McKibben served an appetizing lunch.

The meeting was attended by two visiting Legionnaires, Comrade Jones of Pittsburgh and Comrade Stacey of Bath, Maine.

Holiday Bootleg Drinking Leads To Terrible Deed, Man Surrenders To Police

(International News Service)  
TIGARD, Ore., Dec. 28.—A blood spattered house that was once the happy home of Aubrey Welch, 39, his wife and 8-year-old daughter, Bebe Eileen, stood as a grim memorial today to holiday bootlegging. Welch is under arrest for the fatal knifing of his wife and child.

The drink crazed father slashed Mrs. Welch's throat and stabbed his little daughter late last night. Sobered by a mile through the town to the home of Fred Hambeck to report that he had "committed a horrible deed."

HARRISBURG, Dec. 28.—The biennial legislative conference of the Pennsylvania Federation of Labor will be held here on Monday, January 9.

Delegates from central labor unions, state and district organizations will attend to discuss the Federation's stand on proposed legislation to be introduced at the 1933 State Assembly.

The major topics to come under discussion include unemployment, insurance, the "Yellow Dog" contract, minimum wages for women and minors, and payment at prevailing rates of wages on public works.

"Public interest in legislation is at a higher point than at any other time in recent history," John A. Phillips, president of the State Federation, declared in announcing the meeting.

"This, together with the turn of politics in the national election in Pennsylvania, furnishes much ground for speculation as to what may eventuate in the forthcoming session of the General Assembly."

# "Machine Age" Is Discussed By Scientists

Controversy Rages At Convention, On Unemployment And "Machine Age"

NO REMEDIES ARE OFFERED

By LEIGH MATTESON  
International News Service  
Editor.  
ATLANTIC CITY, N. J., Dec. 28.—Unemployment and the "machine age" were the main subjects of controversy and discussion today at the second sessions of the mid-winter meeting of the American Association for the Advancement of Science.

Opinions of the experts varied widely. Irving Fisher, professor of economics at Yale university, summarized the situation as follows:

"A contraction in the currency and credit causes a fall of prices, which in turn reduces profits, which in turn reduces production, which in turn reduces employment."

No Remedy Offered.  
He offered no specific remedy for this situation.

But Prof. Dugald C. Jackson of Massachusetts Institute of Technology, a prime factor in the "mechanization" of American industry, had this to say at the symposium on "stabilization of unemployment":

"Those who allege the general introduction of machinery has been the cause of unfair, disparate distribution of wealth and over-all instability of employment in this age compared with earlier times have failed to observe all the facts and relationships."

"Observations and figures, insofar as they exist, show that the opposite effects have been operative in America and western Europe throughout the age of machinery. The accrued advantages have come to families as a whole and therefore to women as well as men."

"Such revolutionary social changes, however good in themselves, and however contributory to the welfare

of those least able to take care of themselves, usually leaves a trail of difficulties and abuses in their wake whose rectification lags behind the principal beneficent movement."

Many Difficulties.  
"It is these difficulties of the machine age which must be faced, studied and eliminated; but this should be done with due recognition that they are separate sores associated with a major movement which of itself deserves definite support."

"It is the shifts from occupation to occupation (from industry to industry or from industry to commerce), sometimes forced and cruel, which we must recognize as an objectionable result of invention and machinery."

"To forestall and prevent individual poverty from following in the wake of changes that are of widespread social benefit is a function of civilized society."

Should be Restrained.  
"Reduction of man-hours by machine-hours therefore should be restrained unless the replacement enlarges net earnings sufficiently to provide a reasonable contribution for re-establishing the displaced employees' status of living."

"We need an exacting re-examination of the base of political economy and an authoritative re-statement of its theory made on the light of the present status of science and invention, and for the purpose of pointing the way to making that status still more contributory to human welfare."

HERE'S CHANCE FOR UNEMPLOYED JUDGES  
(International News Service)  
ERIE, Pa., Dec. 28.—Erie county courts have become so over-burdened with civil cases that five judges will occupy the bench here during the January term.

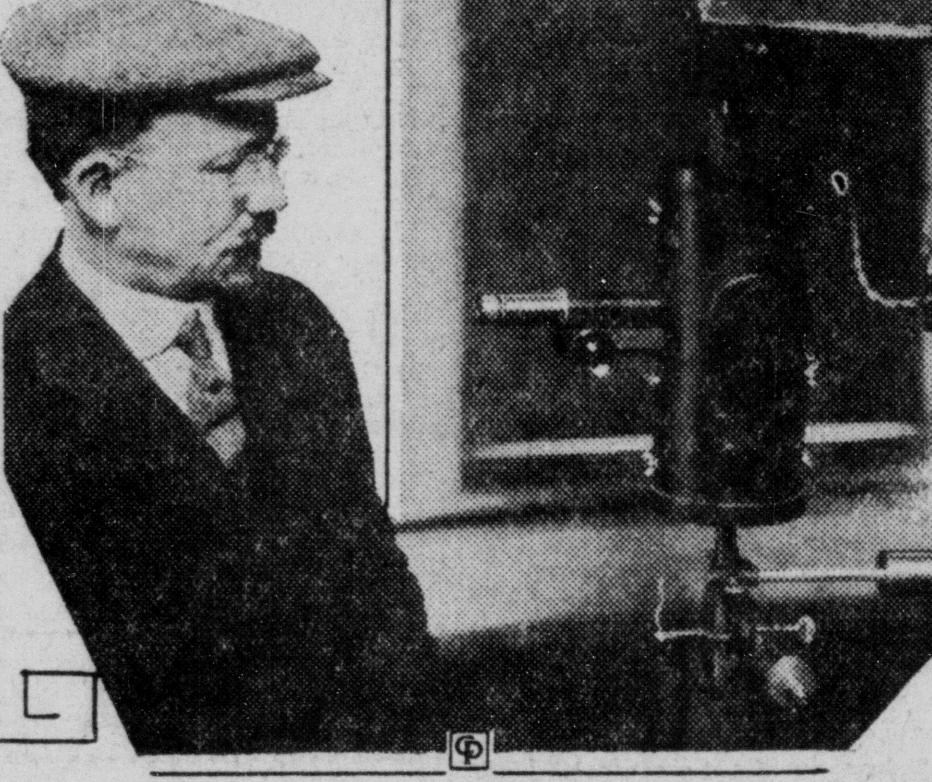

The outstanding case on the docket is the suit of Zach T. Miller, noted showman, who is seeking to collect \$342,000 for an alleged breach of contract by Tom Mix, cowboy actor and circus performer.

THREE PRISONERS TAKEN TO WORKS

## BRINGS STARS NEARER TO EARTH

Hailed as the greatest advance in the field of astronomy in several years, the photo electric device by means of which Prof. Joel Stebbins of the University of Wisconsin, at Madison, has reduced distance of the stars by 200 per cent, is shown above. Professor Stebbins has worked on the perfection of the electrical

cell device for 20 years. By attaching the cell to the huge telescope at Mt. Wilson observatory, in California, he has been able to

more accurately determine the distances of stars from the earth than has ever been done heretofore.

where on examination it was found that he had escaped broken bones.

Today it was stated that he was suffering considerably from bruises of the chest, both elbows, his legs and back, but that the attending physician thought he would recover in a short time, as there was no indication of other or more serious injuries at this time.

Francis Shoaf of 817 Etna street, was enroute west on East Washington street, in front of the Lawrence Savings and Trust company building, when he saw two machines coming out from the curb and cut out around a double parked car, only to collide with the machine of Pete Vitale of 1207 East Washington street. Both machines were damaged.

Joseph McCarthy of 322 Center street, was enroute north on North Jefferson street, as a car bearing Pennsylvania license 72R69 going south on North Jefferson street made a left turn onto Falls street and hit the left rear part of his car, also damaging it. Mrs. Matt Meyers, who was in the McCarthy car was injured to some extent. The other car did not stop.

Kiwanians Play Santa To Kiddies  
Forty Eight Children At The Margaret Henry Home Are Convinced Santa Is Real

The forty eight children who are residents of the Margaret L. Henry Home on Friendship street, are convinced that Santa Claus is a real person, with a heart as big as his body, for Tuesday evening he appeared in the home with two big sacks of presents for the kiddies and when the gifts were opened they were just what they had written to Santa for.

Santa's appearance was sponsored by the Kiwanis club, and many of the Kiwanians accompanied him on his trip to the home. For the twelfth year, "Bill Ray played the part of Santa at the home."

Fred Wolford was in charge of the evening's program and he introduced Marcus Feuchtwanger, president of the Margaret Henry Home board, and he in turn introduced Miss Henry, the matron of the home. Harry Hammond, the Kiwanis pianist, played the children with many piano numbers and Norman Clarke, president of the club for 1932, greeted the children.

The children of the home then presented a half hour entertainment for the club members, with Mrs. Lydia Green in charge. They gave a welcome song to the Kiwanis, the words being composed by the children and then a pageant of the magi, the three kings and the Virgin Mary, was presented, this proving most pleasing to the men.

After the club men had departed the children spent a time with their toys and gifts and then trundled off to bed, each bearing some treasure up the stairs and into his or her little bed.

HIS TIGHT SHOES MADE HIM STAGGER  
(International News Service)  
UNIONTOWN, Pa., Dec. 28.—An excessive amount of liquor usually makes one stagger, but that was not the reason behind the swaying antics of J. A. Johnson, Perryopolis Negro.

A new pair of shoes, which were too tight, caused Johnson to stagger about the scene of an accident, the Negro informed the court after being convicted of driving an automobile while under the influence of liquor.

And the liquor smell on his breath? That was easily explained. He just took a large drink of wine to quiet his nerves after the crash, the Negro pleaded.

Correct This Sentence: "He has demonstrated his shrewdness," said the man, "by purchasing a lot of new brewery stock."

Hit By An Automobile As He Is Crossing East Street Tuesday Afternoon

Howard Phillips, 507 Hillcrest avenue, superintendent of garbage collection, sustained very painful but apparently not serious injuries Tuesday afternoon as he was crossing East street from the city building, when struck by the car of Delbert D. Denniston of 923 East Washington street, who was driving north on East street at the time.

According to the reports at the police station, Mr. Phillips stepped from in front of a car headed south in front of the Denniston machine and was struck by the left front fender of the Denniston machine, knocked into the air and fell to the pavement.

Mr. Denniston stopped, and got out of his machine and assisted Mr. Phillips to his feet. The glasses of Mr. Phillips were broken in his fall. He was removed to the office of a physician and then to his home.

Known Death Toll In Illinois Mine Disaster Reaches To 46 Today

### SEARCH RESUMED FOR EIGHT MORE

(International News Service)  
MOWEQUA, Ill., Dec. 28.—The Shafer coal mine surrendered six more of its hapless victims today, raising the known death toll to 46.

Huddled together aboard two man-trip cars, the half dozen lifeless bodies of workers were discovered early this morning deep in the north entry of that pit of death.

The two mules which had hauled these men on their last voyage thru the bowels of the earth were also found dead.

Further back in the north passage-way the last eight of the original 54 diggers who were in the mine when it was wrecked by a double explosion, lay entombed. No hope was held that they lived.

## FEWER MARRY, BUT 31 TAKE FOURTH CHANCE

HARRISBURG, Dec. 28.—Whether the depression is to blame, the bureau of vital statistics does not say, but it announces fewer persons proportionately were married in Pennsylvania last year than ever before.

Only 176 out of every 10,000 persons more than 15 years old were married in 1931. There were only 60,160 marriages.

Ten brides were between 65 and 74 years old, and 87 per cent were marrying for the first time.

It was the second time for 7,362 men and 8,151 women, the third venture for 216 men and 256 women, and the fourth for 16 women and 5 men.

### FIREMEN'S TREE

#### ONLY ONE TO BURN

STUBENVILLE, O., Dec. 28.—Pre-Christmas warnings by Fire Chief Edward Green of Christmas tree hazards were faithfully observed by everybody but the firemen, a check here today revealed. The only tree fire of the triple holiday occurred in one engine house where firemen, debating whether their tree was inflammable, applied a match to find out. The tree, trimmings and a radio were consumed and two firemen suffered burned fingers.

What's the use. The more you know the sicker you feel when statesmen make a mess of things.

## Revive Interest In Collings Case

Announcement Made Today That Clues In Murder Are Still Being Followed

### NO DEFINITE CLUES FOUND

By DOROTHY DUCAS  
International News Service Staff Correspondent

STAMFORD, Conn., Dec. 28.—Interest was revived today in the famous Collings murder mystery when it became known that a quiet, but thorough investigation of the case, now more than a year old, has been in progress for months.

The investigation is in charge of Judge William A. Kelly, counsel for Mrs. Lillian Collings, widow of the slain Benjamin Collings, who was murdered aboard his yacht in Long Island sound on the night of September 9, 1931, and his body thrown overboard.

Follow Many Clues

"We are following up various angles of the case all the time," Judge Kelly told International News Service this morning. "But, I think it is fair to say, our leads are not as hopeful now as they were—say five months ago."

News of the continuance of the investigation came to light in Dorchester, Mass., where Mrs. Collings is spending the Christmas holidays with her parents.

Today, at Dorchester, she referred reporters to her counsel, Judge Kelly at Stamford.

Her sister-in-law, Mrs. Helen Collings declined to discuss the case, also referring all inquiries to Judge Kelly.

Judge Kelly talked freely enough but he had no "leads" to reveal. He said:

Probe Goes On

"A number of what appeared to be promising clues came up in the past five or six months but, upon investigation, all of them proved to be discouraging."

"We are still continuing the investigation. As a matter of fact we have never stopped. A case of this kind never can be closed."

## New Castle High Defeats Westinghouse 29-11

### Ridley And Uram Stars Of Game

New Castle High Basketball Team Wins Third Straight Victory Of Season

Visitors Get But Three Field Goals In Close Guarding Battle Here

New Castle High School basketball team rang up their third straight victory of the season here last night at George Washington Junior High gym, by handing a highly touted Westinghouse High team of Pittsburgh a 29 to 11 lacing. So close a guarding game did Reiber and Komic play that the visitors were held to three field goals. Uram and Ridley led the Bridenbaugh machine in field goal tossing.

A crowd of about 500 witnessed the game last night, which constitutes the biggest gathering of the year at the Washington High gym to watch the New Castle team in action. Westinghouse jumped into the lead in the first few minutes of play and held it throughout the quarter which ended 4 to 1 New Castle's lone joint coming to a foul by Teplica. Gibson and Prebraro did the scoring for Westinghouse.

Ridley Plays Well Archie Ridley the New Castle center got his eye on the basket at the start of the second quarter and dropped one through. Reiber made a foul to deaden the count at 4-4. Uram's shot gave the New Castle the lead which they did not relinquish. Komic's basket just as the first half ended gave New Castle an 8 to 6 lead.

Ridley again dropped one through the hoops from the side of the floor to start the game rolling in the third period, and Reiber followed suit, with Ridley then coming back with another nice side shot. Uram and Reiber both scored and so did Beckett for the visitors. Uram and Komic each sunk field goals to give New Castle a lead of 21 to 7 and when the third period was over New Castle was out in front 23 to 6 with Komic and Uram each piling in a foul.

Coach Bridenbaugh sent Fred Shelloff in at center for Ridley and Coach Zahnizer of Westinghouse substituted Reimers for Prebraro. There was still five and a half minutes of the game remaining. Battley replaced Teplica at forward and Thomas replaced Komic at guard for New Castle, with Prebraro going back in the game and taking up the forward job held by Johnson.

Uram Sinks Two Gibson caked a couple of fouls for the Westinghouse team making the count 23 to 10. Reiber made a foul for New Castle, with the time getting shorter. Johnson went back in for Beckett. McCroary went to guard in place of Prebraro who had

four personals. Reiber made another foul try. Uram sunk a long one running the score to 27 to 10, with only a minute left to play. Gibson made a foul and Uram sunk a field goal just as the game ended that counted making the score 29 to 11.

New Castle looked very much improved over their showing in the Union game last week. Braddock High will be the opponents for New Castle High at George Washington Junior High gym this Friday night.

### New Rule For Extra-Point Seems Likely

Football Coaches Discuss Two Points For Running Or Passing After Touchdown

ONE-POINT FOR ALL PLACEMENTS

By FRANK (BUCK) O'NEILL International News Service Sports Writer

NEW YORK, Dec. 28.—The current meeting here of football coaches and other bodies affiliated in various ways with college athletics will go down in history as one of the best and busiest in recent years.

On every hand one gets repercussions of Prof. Philip Badger's startling speech at the Amos Alonzo Stagg luncheon. His statement that New York University was not deodorizing, but deodorizing, re-echoed through the meeting hall.

The consensus seemed to be that Prof. Badger was neither wholly wrong. It was admitted on all hands that not all of the colleges were making conscientious efforts to set their athletic house in order. But the writer could not find a single coach nor director who would admit that the athletic system at his school was in need of deodorizing.

Better Things Neither was an admission made that the colleges would be openly and avowedly professional in 10 years. It was agreed that the trend was toward better things.

There is going to be plenty of discussion on the proposition of whether coaches should have a vote in the rules committee at today's meeting.

One constructive thought in setting that much mooted point from touchdown was given by "Chuck" Collins of North Carolina. Collins advanced the theory that a team running or passing successfully for point after touchdown be allowed two points for a successful point instead of the one allowed at present. The single point could be awarded for teams kicking after touchdown.

For instance the 1911 team as many as possible of that ancient team can attend and all sit together. The 1930 team, and well in fact every year. The testimony for this undefeated championship Bridenbaugh machine is going to be one of the biggest of its kind ever held in New Castle.

There will be plenty of room for everybody. It is suggested that the Alumni football players have a meeting and get things organized for the banquet which in case you have forgotten is on January 4, and the scene will be the George Washington Junior high gym.

Sacred Hearts "A" basketball team traveled to Sharon last night and handed the strong Sharon Phalanx quintet a 22 to 23 licking. Mancine, Gallagher and McSherry were the stars of the game. Joe Aiello would like to have the Sharon Phalanx manager get in touch with him for a return game at New Castle.

### HERE AND THERE IN SPORTS' LAND

Reports from Tucson, Ariz., where the Pitt Panthers are whipping into condition for their clash with the University of Southern California say that Cuba, Sebastian and Heller were the victims of minor injuries in yesterday's practice. Cuba was the most hurt as he suffered an old leg injury. The game will be played January 2 in the Rose bowl at Pasadena.

Jack Sharkey flung a broadside at Max Schmeling yesterday. He said that Schmeling would no longer be considered by him as a contender for his title. Meanwhile Jack Dempsey is working up the Schmeling-Baer proposed fight and various cities are offering bids for the heavyweight fracas.

Official fielding records show Earl Grace of the Pirates to be the best fielding catcher in the National League. His average of .998 is better by two points than the record made by Frank Hogan of the Giants in 1931. Grace made another record in accepting 444 chances from August 29, 1931, to September 8, 1932, without an error.

Boston Braves, who were next to last in batting led the National League clubs in fielding during the 1932 season and made a new record as they did it. The Braves, as a club, handled 6,287 chances during their 155 games and made only 152 errors. The average was .976, a point higher than the mark of the Cubs in 1929 and the same distance below the major league standard established by the Yankees in 1923. Wally Berger, outfielder, tied the individual record for outfielders in 100 games or more with .993, and Walter Maraville topped the second basemen with an average of .975.

### Jack Dempsey Is In Earnest

Former Heavyweight Champion Plans To Become National Promoter

SEEKS NEW YORK SITE FOR BOUTS

By DAVIS J. WALSH International News Service Sports Editor

NEW YORK, Dec. 28.—Coincidentally with a report that Col. John S. Hammond, ousted official of Madison Square Garden, would head a rival syndicate intending to run against the Garden on a cut-throat basis, came a statement from Jack Dempsey today that he was taking up permanent headquarters here and had under consideration an offer to conduct a new sports arena in the Times Square district. Dempsey further announced himself as "a national promoter" who would step in and promote anywhere the hook up might seem attractive, but added that New York henceforth would be his major field of operations.

He had just finished a midnight telephone talk with George Getz, Chicago millionaire, who, he says, wants him to bring the Schmeling-Baer fight there for the world's fair next summer. They will confer further on the matter here on January 4, he added, at which time he will inform the Chicago man that a guaranteed seat sale must be forthcoming or the fight will not.

Another factor to be considered is the Illinois law, which limits non-championship fights to ten rounds, but, according to Dempsey's version of the telephone conversation, Getz assured him that steps were being taken to rectify the situation.

### Football Letters Are Awarded To Grove City Men

GROVE CITY, Dec. 28.—Fourteen letters were awarded to Grove City college football players by a recent action of the athletic council, it was announced today by R. E. Thorn, director of athletics. It is an unusually small number compared with recent years, but this year's Grover squad was small.

Based on length of service during the fall campaign, the following gridgers earned letters: Arthur Alexander, William Bache, Andy Beres, George Bider, Larry Critchfield, George Felt, Robert Gross, Michael Kome, Sam McCoy, George Plance, Verne Smith, Richard Thomas and John Tomko. Bobby Gross was the only player on the list to earn a first letter. Manager Norman Liverman of Mercer was also given a letter.

The council also elected Harry Long of Grove City as football manager for 1933. The members taking part in the awards were Venard Fegley, Larry Critchfield and Michael Koma, seniors; Mary Luzanski and Blaine Laycock, juniors; Richard Thomas, sophomore, and Athletic Director R. E. Thorn.

### Braddock High Is Next On Schedule For High Passers

Championship Braddock High Team Will Play New Castle Here On Friday

Coach Philip H. Bridenbaugh will send his New Castle high school basketball team back to the hardwood court Friday night, this time to oppose the fast Braddock high team. Braddock won the W. P. I. A. L. trophy last year. New Castle lost to Braddock at the Pitt stadium in a close and hard fought battle.

### Fight Results

(International News Service) AT WEST PALM BEACH, Fla.—Pietro Corri, Austrian heavyweight, drew with Irving Ashkanazy, Tallahassee, Fla. (10).

Dave Barry, St. Louis, stopped Young Lucian, West Palm Beach, (5).

### Sharkey Will Not Fight Schmeling

Jack Sharkey Flatly Refuses To Consider Return Bout With Schmeling

(International News Service) BOSTON, Dec. 28.—Max Schmeling is on the outside looking in as far as a crack at Jack Sharkey's heavyweight diadem is concerned. And it makes little difference whether the New York Madison Square Garden, Jack Dempsey or the man in the moon does the promoting.

Schmeling will never fight a championship battle as long as Sharkey is king of the heavyweights. That much appeared certain today after Sharkey's blast against the German ex-champion, who was branded a "quitter" because he accepted the title on a foul, and after Dempsey, another ex-champion now in the promoting field, bid for a Sharkey-Schmeling match to be held next September when Sharkey's contract with the Garden will have expired.

"Sharkey's statement in regard to the Schmeling situation can be considered as an answer to Dempsey's telegram," said Johnny Buckley, Sharkey's manager, and refused further comment.

### Paul Cuba Is Severely Hurt

Former New Castle High Star May Not Get In Rose Bowl Game

IS CARRIED FROM PRACTICE FIELD

(International News Service) TUCSON, Ariz., Dec. 28.—Coach Jock Sutherland of the Pittsburgh Panthers was menaced by a new problem today as he continued practices for the game against the University of Southern California in the Pasadena Rose bowl Jan. 2.

Pitt's giant tackle, Paul Cuba, injured a leg in scrimmage and was carried from the gridiron yesterday. He will be unable to work out with the team again until Saturday, if then. He is the only one of the regulars on the injured list. Physicians expressed belief he would be able to play Monday.

Cuba Is Injured. Cuba was hurt in the last regular scheduled scrimmage. Light signal drills were to be conducted during the next four days preceding departure of the Panthers Saturday night for the coast.

Heller, Sebastian and Skladany, regulars who had been injured slightly in previous workouts, now are in good condition and ready for the Trojans.

Trojans Scrimmage. LOS ANGELES, Dec. 28.—The University of Southern California football team was to have a long hard scrimmage today and then taper off the next few days for their game in the Pasadena Rose bowl Monday against Pitt's Panthers, now poised at Tucson, Ariz.

Coach Howard Jones indicated all his players were in excellent condition. Uncertainty surrounded the personnel of the starting backfield, but it was considered likely the same quartet that started against Notre Dame would hear the opening whistle against the Panthers.

### Carnera-Sharkey Match Is Sought

(International News Service) DALLAS, Tex., Dec. 28.—Possibility that Primo Carnera may be offered a chance at a title shot with Jack Sharkey came to light here Tuesday when the Italian's managers, Walter Friedman and Mike Collins, announced they had received a telegram from Madison Square Garden to report to New York as early as possible to discuss the terms of the battle, probably to take place in May.

Carnera's managers refused to divulge details of the offer.

### Maranvill Best Defensive Second Sacker In Majors

Records Show Veteran Boston Player With Fielding Mark Of .975

(International News Service) NEW YORK, Dec. 28.—Walter J. (Rabbit to you) Maranville of the Boston Braves, who dived from a tank of goggle water into the fountain of youth nearly 10 years ago, was the most efficient second baseman in the National League last season.

That is the choicest morsel to be gleaned from the official National League fielding records for 1932, made public today.

The comical midget, 40 years old and 21 years in the majors, continued to cheat Father Time by playing in 149 games and hanging up a fielding mark of .975. He led in put-outs with 402, was third in assists with 473 and made only 22 errors.

Boston also led in club fielding with a mark of .976, a new record. The league made only 14,683 assists, a new low.

Earl Grace, Pittsburgh, led the catchers with .998, a new high for backstops. Up to September 8 he accepted 444 consecutive chances without an error. Twenty-one pitchers went through the year without making an error.

Other leaders were: outfielders, Walter Berger, Boston, .993; tying the league record; first basemen, Don Hurst, Phillies, .993; third basemen, Pinky Whitney, Phillies, .960.

Two other 10-rounders are featured on the card, the first bringing together Maxie Rosenbloom, New York light-heavyweight, and Billy Jones, Philadelphia negro; and the second witnessing a clash between Martin Levandowski of Grand Rapids, Mich., and Bob Olin, New York light-heavyweight.

## STOCKS

Stock Market  
Turns UpwardAggressive Buying Of Rail-  
road Stocks Develops  
In Session

(International News Service)  
NEW YORK, Dec. 28.—Aggressive buying of railroad stocks, particularly New York Central, turned the stock market upward today after early irregularity.

The market snapped back from one to more than two points in short order. The rebound came in the face of weakness in grains, many deliveries going to new record lows in Chicago in sympathy with a weak tone in Liverpool.

Central was used as the rally leader by the bulls and the stock was whirled up nearly three points from its low and more than two points above yesterday's close. Union Pacific did as well, while other rails were strong.

The rise in the carrier stocks was aided by the good showing of November earnings reports, better traffic figures for last week and the beginning of the freight surcharge hearings before the I. C. C. in Washington.

The rest of the market followed the rails. Leaders like American Telephone and Allied Chemical rose one to two points each, while the U. S. Steel issues improved despite a further drop in the industry's operations for the week.

Short covering played a prominent part in the rise. This was evidence by the strength in Case Threshing against the break in wheat. Rallying tendencies were displayed by grain late in the forenoon, which stimulated speculative sentiment.

Bonds strengthened with stocks, while commodities were sluggish.

ELLWOOD CITY, Dec. 28.—The unit scales of attainment have recently been given to all pupils who are completing the sixth grade at the end of the present semester. These tests are made by experts in each field of study, and show the strong, and weak points of each individual, and class.

The results of these tests show that each of our present sixth grades are equal to or above the average sixth grade in the United States. According to these tests these classes are best prepared in English as shown by their ability to use capital letters, to punctuate sentences, and to use correct forms of words. The subject needing the most future study is arithmetic.

An accurate record and chart is kept of the grades in all subjects of every pupil. Every time a test is given the grade will be indicated on the chart. This will show the advancement or weakness of the pupil and will enable a teacher to see how to work with the pupil. The records will also show the work being done by the teacher in this process.

## Pennsylvania Uses Million And Half Christmas Trees

Estimate Two Million Dollars Spent On Christmas Decorations

New Castle residents helped the other citizens of Pennsylvania very materially in using up a million and a half Christmas trees this year, according to the estimate of Deputy John W. Keller of the department of forests and waters.

About half of these trees, the equivalent of some 500 carloads, were imported into Pennsylvania from Canada, New England, the lake states and the Pacific northwest.

The imported trees were white pine and red spruce, balsam fir and Douglas fir. Trees which were cut in Pennsylvania were principally pines, hemlocks and cedar. Imported trees varied in height from three to 20 feet and sold from 25 cents to \$15. Home grown trees retailed at an average price of 75 cents each.

It is estimated that the people of Pennsylvania spent at least two million dollars on Christmas decorations alone, not including the money expended on holly, mistletoe and other Christmas greens shipped from the south.

Not only is a motorist entitled to a decent looking plate, but the state makes a mistake sending out cheaply made ones. It seems to imply a shortsightedness upon the part of the state officials.

Pennsylvania's policy in license plates seems to be the ideal one. Only one color scheme is ever used and blue and orange, with the numbers and background exchanging colors each year. And from here to Medicine Hat, Pennsylvania's plates are known.

There was a time when Pennsylvania changed colors every year. Back in 1909 the color was a white background with black numerals, and the plate was made of heavy enameled steel. Another year the plates were a sort of polychrome color.

Gradually the widening on East Washington street is being completed. The east side of the street is finished and what a difference. When the both sides are finished even the hesitant motorist will be able to pass a street car on the right side. In the past in has been a test of skillful driving.

## ROAMING

With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

There have been some changes in the motor license requirements from time to time, but thus far they still maintain the cash in advance plan. You send your money and you get your plates. Most motorists are aware of the rule but now and then some customers get the idea that license plates are delivered on a cafeteria plan.

There was one dropped into the motor club office the other day to get some plates and seemed like any other customer while the form was being filled out. As he finished, he turned away and started to leave. "Haven't you forgotten something?" asked the secretary, B. N. Hanlon.

"I don't think so. What do you think I have forgotten?" was the rather surprising answer. "How about the money to get these plates?" asked Hanlon. "How do you get that way?" When I get the plates I'll pay for them."

Mr. Hanlon insisted that the state must have the money and if the customer wanted the club to get the plates at least he would have to pay the cost of them. "You mean I should give you ten dollars?" asked the chap incredulously.

Hanlon assured him it would cost nothing less and then came the pay off. What should I give you the ten dollars?" asked the customer. "I don't know you."

Nor did he leave the ten. He was one lad they weren't going to fool and nobody was going to get his money until he got the commodity. And he'll probably still have his application next summer unless he changes his mind.

Ohio has a trick looking license tag this year. Looks as though some small boy had been messing around in his Christmas paint box and had daubed up a piece of metal. It is probably much cheaper to produce than their last year's plate, and looks every bit of it.

### Uniontown Girl Being Hunted

Fear Caroline Lake, 18, Has Carried Out Threat Of Suicide, Missing Month

(International News Service) UNIONTOWN, Pa., Dec. 28.—Authorities have been enlisted in the search for 18-year-old Caroline Lake, missing mysteriously from her home more than a month, leaving behind only a note that she was "taking one last flight at life" with "ten bucks".

Friends and acquaintances today expressed the belief the girl had carried out her threat of suicide but were puzzled that no trace of her body had been found. She failed to appear at funeral services for her father a week ago.

The girl's note was addressed to

Joe Dumont at whose home she was housekeeper. It read:

"Joe: Well this is the best way out. I took these last 10 bucks to have one last fling at life so you won't be bothered with me anymore. If you don't get what I mean, I am going to commit suicide today. Sounds nice, don't it? Goodbye, Caroline. Forgive me."
